

EP-Flex™ Elite

Less really is more

STRONGER

Pregis is committed to offering the highest quality protective packaging while minimizing environmental impact. That's why we leveraged multi-layer film technology to develop EP-Flex Elite, a film formulation that provides higher quality air pillows using significantly less virgin plastics.

LIGHTER

BETTER

EP-Flex Elite's composition delivers superior seal strength with increased puncture resistance to ensure products are protected through the ship cycle.

50% more strength

25% less environmental impact

STRONGER

- 50% improved puncture resistance
- Stronger seals for longer life cycle and enhanced reliability

LIGHTER

- Lighter weight rolls easier to handle and load
- Longer length roll options reduce changeover
- Reduces valuable warehouse space

BETTER FOR ENVIRONMENT

- Multilayer technology creates stronger film using less virgin plastics
- Superior carbon footprint
- How2Recycle labels simplify and encourage recycling

Leave your mark on the customer, not the environment.

Products worth protecting deserve Pregis
