

Form-It™

Self-Stick PE foam

Create custom protective cushioning and surface protection for varied and odd shaped items within your business with blocks or strips that stick to the box. Quickly trim foam strips from the roll, remove liner to expose the adhesive strip and affix to a product's container in the spots necessary to protect that particular item.

Whether packaging heavy fragile products or lightweight delicate items, there is a roll of Form-it foam to fit your need.

Form-It is your universal go to packaging material.

- Custom PE foam packaging is created from standard items.
 - Trim to necessary lengths to protect varied products.
 - Affordable and readily available in three thicknesses as standard inventory.
 - Decrease fabrication and design costs.
 - Rolled foam take up less inventory space than custom fabrications.
- Easy to use, just peel and stick to the interior of the product container.
- Create custom packaging with characteristics to fit your specific needs: Light, Medium and Heavy Duty
 - Create dividers, U-channels, L-shapes, pockets, and brace and block
 - Excellent load bearing, insulation, and impact absorption characteristics.
 - Custom-capable Form-It means that you are not constrained by cost or shape.
- Available in multiple thickness and compression characteristics.

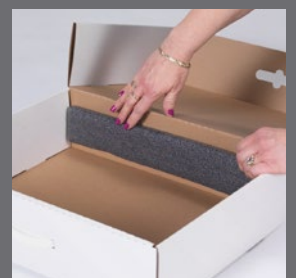

How it works:

Cut to length off of the roll of foam.

Peel the film liner off to expose adhesive.

Stick to the box interior where needed.
