Pregis PolyMask®
High-Performance Temporary Protective Films for Coated & Painted Metals
Pregis PolyMask® is a leading domestic manufacturer of temporary protective films (strippable vinyl/PVC), specialty coatings and adhesive technologies.

When it comes to coated and painted metals, surface protection is a necessity during manufacturing, distribution and installation.

Pregis PolyMask commands a storied history of protecting finished metal surfaces - from coils to insulated panels. That means increased throughput and labor savings, along with avoiding the unnecessary costs of damages.

**Pregis PolyMask Promise**

- Domestic production offers shorter lead times and less inventory
- UV film formulations offer resistance to extended outdoor exposure
- Stable adhesives with varying tack levels for easy application and removal
- Durable, high-performance films protect surfaces during critical processing, shipment, and installation at the jobsite
- Adhesive systems formulated for a variety of paint/coating systems
- Unparalleled R&D to design films and adhesives tailored to a variety of surface finishes and paint systems
- Vertical integration to ensure the highest quality product
- Color variability for every scenario
- 4-color print capabilities for brand customization
## Metal Coils

- **Applications:** Paint, powder coating or specialty coatings to aluminum or steel coils
- **Strategic protection** that not only applies easily to flat sheeting, but expertly stays on during the rewinding process.

## Garage Door Manufacturing

- **Applications:** Commercial and residential overhead garage doors
- **Strategic protection** during embossing, stamping, roll forming, stacking, and environmental variables such as, heat exposure.

Roofing and Building Panels

- **Applications**: Metal wall cladding, roofing, ceilings, perimeter edges, and accessories
- **Strategic protection** during roll forming, sheeting, cutting, and stacking, and environmental variables such as heat and UV exposure.
