The Airspeed Smart is a convenient and cost-effective way to create inflatable cushions on-demand for compact or work-station packaging operations. The lightweight system offers portability, durability and functionality. With great ease, AirSpeed Smart turns flat, easy-to-store, high performance film into lightweight, non-abrasive void-fill cushioning for a variety of packaging needs.

- **Compact**: At just 26 lbs., this small, self-contained unit is truly portable
- **Easy to operate**: Simply start/stop machine, load film and go!
- **Reliable**: Machine is engineered for durability and low maintenance.
- **Versatile**: Single system produces inflated cushions of varying lengths and air fill levels, customized to fit your needs.
- **Quiet**: Suitable for small areas without interfering with conversation or on-going business.
- **Productive**: Integrate with a Smart accessory for maximum productivity and ergonomics

**AirSpeed Air Pillows**

Inflatable pillows are a superior, cost-effective alternative to foam peanuts, bubble packaging and paper fill systems in providing protection to a variety of items during shipping. AirSpeed air pillows are made for the circular economy. Printed with How2Recycle labels our air pillows are made from low density polyethylene air pillows are recyclable at store drop-off locations.

- **Excellent air retention and durability**: Pregis air pillows stretch before they pop!
- **Truth in sizing**: Pregis films yield 10 – 20% more void fill than competitive films due to minimum “skirt loss”
- **Transparent, clean and neat**: Improved customer satisfaction
- **Non-abrasive**: Soft, smooth film surface; eliminates paper cuts
- **Sustainable**: Recyclable at store drop-off locations
