The Power of Pregis®
Unparalleled manufacturing engineered for the next generation of temporary protective films and specialty coatings.

Pregis is a forward-looking protective packaging company focused on innovation, sustainability, and customer experience.
Pregis PolyMask®, a brand of Pregis, is the leading domestic manufacturer of temporary protective films and specialty coatings.

The Pregis PolyMask Difference

Tailored Consultative Approach
Application-specific solutions optimized for your evolving needs

In-House R&D
Sophisticated, proven engineering and innovation expertise

Vertically-Integrated Film Manufacturing
Strict in-house quality control and best-in-class lead-times

Sustainability Leadership
Data-driven decision-making to support material, waste and carbon reduction

Industry-Leading Service & Support
You are our priority. As your chosen domestic supplier, we go the extra mile for our customers – all day, every day

World-Class Laboratory Capabilities
- Adhesion testing
- UV testing
- Accelerated weathering testing
- Heat & humidity testing
- Cycle testing
- Abrasion testing
- Mechanical film testing (tensile, elongation, DART)

What We Do
Innovation
• Build the future of protection

Sustainability
• Protect, Preserve, Inspire

Customer Experience
• Designing for people

Pregis At-A-Glance
$1B+
2022 revenue
3,000+
employees

30+
locations

& film labs

Markets Served
- Metals
- Transportation
- Appliances
- Building & Construction
- Glass
- Contract Manufacturing
- Machinery Equipment

Film & coating production
Unrivaled Manufacturing Capabilities Engineered for Optimal Output & Quality:

Recent additional capacity equivalent to film covering 40,000 football fields annually

Production Capabilities

Wide web (104") high speed coating, printing, and converting capabilities

Multi-zone ovens yield controlled drying profiles for higher coat weight and precision

Belt-carried film enables thin gauge with improved tension control and additional substrates
