

A Safety Data Sheet is not legally required for this product under the OSHA Hazard Communication Standard (29 CFR 1910.1200). The following information is provided as a courtesy service to our customers.

SECTION 1: IDENTIFICATION			
Product identifier			
Trade name:	Astro-Foil [®] MPET (High-E) Extrusion Coated Products		
Synonym(s):	None known		
Preparation/Revision date:	20 August 2019		
Relevant identified uses of the substance or mixture and uses advised against			
Identified uses:	Protective packaging		
Uses advised against:	None known		
Details of the supplier of the safety data sheet			
Manufacturer / Supplier			
Company name:	Pregis Innovative Packaging, Inc.		
Address:	1650 Lake Cook Road, Suite 400		
	Deerfield, IL 60015		
Customer service:	877-692-6163		
Emergency telephone number	For product and additional safety information:		
	George T Allen		
	Director of Material Sciences and Technical Services		
	Telephone: (559) 651-0951 x 101		
	E-Mail: gallen@pregis.com		
	24-Hour Emergency Contact:		
	Chemtrec: (800) 424-9300		
SECTION 2: HAZARDS IDENTIFICATION			
Classification of the substance or mixture	Not regulated per OSHA Hazard Communication Standard 29 CFR		

1910.1200.

SECTION 2: HAZARDS IDENTIFICATION (CONT'D)

This product conforms to the U.S. OSHA Hazard Communication Standard's definition of an "Article," i.e., "...a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees.

Label elements

Contains:	None
Hazard pictogram:	None
Signal word:	None
Hazard statement:	None
Precautionary statements:	
- Prevention:	None
- Response:	None
- Storage:	None
- Disposal:	None
Supplemental label information:	None

None

Other hazards

Hazard summary

Physical hazards:	Not classified for physical hazards.
Health hazards:	Not classified for health hazards.
Environmental hazards:	Not classified for hazards to the environment.
Main symptoms:	Eye contact may cause slight irritation. Inhalation of fumes from heated plastic may
	cause irritation of respiratory tract, chest discomfort, and/or dizziness. In rare

cases, skin contact in sensitive individuals may cause irritation or reddening of skin.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

This product conforms to the U.S. OSHA Hazard Communication Standard's definition of an "Article," i.e., "...a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical , and does not pose a physical hazard or health risk to employees." The following information is provided as a courtesy.

Chemical Name	Percent	CAS No.	Notes
Polyethylene Terephthalate (PET)		25038-59-9	
Aluminum		7429-90-5	
Polyethylene		9002-88-4	

SECTION 4: FIRST AID MEASURES

General Information	Show this Safety Data Sheet to the medical professional in attendance. Adverse health effects are not anticipated with use of this product as intended. If symptoms occur, follow first aid measures as appropriate.
Description of first aid measures	
Inhalation:	If respiratory irritation occurs, remove affected personnel to fresh air. Obtain medical attention if irritation persists or is severe.
Skin contact:	Wash contaminated skin with mild soap and water. Individuals experiencing skin sensitivity should obtain medical advice.
Eye contact:	Flush eye with water for 15 minutes. Get medical attention if irritation persists.
Ingestion:	Not considered a likely route of entry. Swallowing small quantities will not cause harm.
Notes to Physician:	None specified
Most important symptoms and effects, both acute and delayed	Inhalation of fumes from heated plastic may cause irritation of respiratory tract, chest discomfort, and/or dizziness. In rare cases, contact with sensitive individuals' skin may result in irritation or reddening of skin.
Indication of any immediate medical attention and special treatment needed	None known

SECTION 5: FIRE FIGHTING MEASURES

General fire hazards	Polyethylene is combustible. Processes such as grinding could produce fine dust and could be a potential explosion hazard. Can burn in fire, releasing toxic vapors, gases, and fumes.
Extinguishing Media	
Suitable extinguishing media:	Water, Foam, Dry Chemical, Carbon Dioxide. Use extinguishing media
Unsuitable extinguishing media:	appropriate for surrounding material. None known.
Special hazards arising from the	None known
substance or mixture	
Advice for firefighters	
Special protective equipment for firefighters:	Wear full bunker gear including a positive pressure self-contained
Special firefighting procedures:	breathing apparatus. Not applicable.
Special remarks on fire hazards:	Polyethylene is combustible. Processes such as grinding could produce
	fine dust that could be a potential explosion hazard.
SECTION 6: ACCIDENTAL RELEASE MEASURES	
Personal precautions, protective equipment and emergency procedures	Protective clothing is not normally required under normal conditions of intended use, however, the use of gloves and safety glasses is consistent with good manufacturing and hygienic practice.
	8
Methods and materials for containing and cleaning up	No special measures necessary beyond general housekeeping.
•	
and cleaning up Section 7: Handling and Storage	
and cleaning up	

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

United States. Occupational Exposure Limits	Not established for product as a whole.
Appropriate engineering controls	Local ventilation should be provided if product is further processed producing dust or fumes. General ventilation may also be used, but local ventilation is usually preferable.
Individual Protective Measures	
General Information:	The following general hygiene considerations are recognized as common, good industrial hygiene practices. Wash hands after use and before eating, avoid breathing dust, and wear safety glasses.
Eye/face protection:	Not normally required, but may be recommended if product is further processed.
Skin protection:	Not normally required. Wearing gloves is consistent with good industrial safety / hygiene practice.
Respiratory protection:	Not normally required. If product is being further processed producing dust or fumes, local ventilation should be provided. Respiratory protection is normally only to be used as a temporary measure until proper ventilation can be installed.
Thermal hazards:	None known.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Form	Solid, plastic, reflective insulation	Explosive properties	Not applicable	
Color	Various colors	Explosive limit	Not applicable	
Odor	Odorless	Vapor pressure	Not applicable	
Odor threshold	Not applicable	Vapor density	Not applicable	
рН	Not applicable	Evaporation rate	Not applicable	
			0.91-0.97 for	
Melting/freezing point	219-239 °F (for polyethylene resin)	Relative density	polyethylene resin	
			(main component)	
Boiling point, initial boiling	Not applicable	Partition coefficient	Not applicable	
point and boiling range		(n-octanol/water)	Not applicable	
Flash point	Not applicable	Solubility (water)	Insoluble	
Auto-ignition temperature	No established for product as a whole	Decomposition temperature	No data available	
Flammability (solid, gas)	No data available	Bulk density	Not applicable	
Flammability limit-lower%	Not applicable	Viscosity	Not applicable	
Flammability limit-upper%	Not applicable	VOC (weight %)	Not applicable	
Oxidizing properties	Not applicable	Percent volatile	Not applicable	

SECTION 10: STABILITY AND REACTIVITY

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization will not occur.
Conditions to avoid	Avoid contact with strong oxidizers and excessive heat.
Incompatible materials	Strong oxidizing agents.
Hazardous decompositions products	Temperatures above 480°F could cause product degradation potentially producing toxic vapors including carbon monoxide, olefinic, and paraffinic compounds, trace amounts of organic acids, ketones, aldehydes, and/or alcohols.

SECTION 11: TOXICOLOGICAL INFORMATION

General information on likely routes of exposure

Ingestion:	Not expected to occur under normal conditions of intended use. No
	adverse effects known to be associated with ingestion of small
	amounts of this inert polymer material. Ingestion of large
	quantities may result in gastrointestinal discomfort or distress.
Inhalation:	Inhalation at ambient temperatures unlikely except for dust from
	grinding. Fumes from overheating or combustion of polymer may
	cause respiratory irritation. Inhalation of dust may cause respiratory
	irritation.
Skin contact:	In rare cases, skin contact in sensitive individuals may cause irritation or
	reddening of skin.
Eye contact:	Eye contact may cause slight irritation.
Symptoms:	Eye contact may cause slight irritation. Inhalation of fumes from heated
	plastic may cause irritation of respiratory tract, chest discomfort, and/or
	dizziness. In rare cases, skin contact in sensitive individuals may cause
	irritation or reddening of skin.

11.1 Information on toxicological effects

Acute Toxicity:	Not established for product as a whole. Polyethylene resin (main ingredient) not considered to be toxic to humans or animals.
Serious Eye Damage/Irritation:	No data were identified for this product.
Skin corrosion/Irritation:	Skin contact not normally a problem. In rare cases, skin contact in sensitive individuals may cause irritation or reddening of skin.
Respiratory/Skin Sensitization:	No data were identified for this product.
Germ Cell Mutagenicity:	No data were identified for this product.
Carcinogenicity:	Polymer matrix may integrate crystalline silica, a substance "known to the State of California to cause cancer," though crystalline silica concentrations, if any, are small (< 1% by weight) and not readily released from their chemical bonds to polymer matrix. Metallized film may contain several substances "known to the State of California to cause cancer" in trace quantities.
Reproductive Toxicity:	No data were identified for this product.
Developmental Effects:	No data were identified for this product.
STOT – Single Exposure:	No data were identified for this product.
STOT – Repeated Exposure:	No data were identified for this product.
Aspiration Hazard:	Not relevant based on physical form of the product.
Conclusion/Summary	This product is not expected to produce toxic effects.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity	No data were identified for this product as a whole. For polyethylene resin (main ingredient) ecotoxicity is expected to be low.
Persistence and degradability	No data available
Bioaccumulative potential	No data were identified for this product as a whole. For polyethylene resin (main ingredient), bioaccumulation is not expected to occur.
Mobility	No data available
Results of PBT and vPvB assessment	No data available
Other adverse effects	None known
Conclusion/Summary	This product is not classified as hazardous to the environment.

SECTION 13: DISPOSAL CONSIDERATIONS	

Waste treatment methodsResidual waste:Dispose as normal, non-hazardous, solid waste, in accordance with
applicable Federal, State and Local regulations.Contaminated packaging:Dispose as normal, non-hazardous, solid waste, in accordance with
applicable Federal, State and Local regulations.Disposal methods/information:If the material as supplied becomes a waste, it does not meet the
definition of a hazardous waste as defined under RCRA (40 CFR 261).

SECTION 14: TRANSPORT INFORMATION

UN Number	Not applicable, not regulated as hazardous for transport.
UN proper shipping name	Not applicable, not regulated as hazardous for transport.
Transport hazard class(es)	Not applicable, not regulated as hazardous for transport.
Packing group	Not applicable, not regulated as hazardous for transport.

SECTION 14: TRANSPORT INFORMATION (CONT'D)

Environmental hazards	Not applicable, not regulated as hazardous for transport.
Special precautions for user	Not applicable, not regulated as hazardous for transport.
Transport in bulk according to Annex II MARPOL73/78 and the IBC Code	Not applicable, not regulated as hazardous for transport.

The transport regulation may vary based on the country of use. Check for the appropriate regulations in the country of transport or usage of this product.

SECTION 15: REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

USA Federal Regulations

29 CFR 1910.1200 Hazard Communication	
Standard (HCS):	Not regulated
California Proposition 65:	No Labeling Required.
TSCA 12b:	Nonylphenol (a trivial compound of polyethylene)
SARA Title III – Section 302,	
Extremely Hazardous Substances (EHS):	None
CERCLA 102A/103 - Hazardous substances:	None
Other Regulations	All shipping mailer packaging and packaging components, manufactured in the United States by Pregis Innovative Packaging, Inc., comply with the several United States' enacted provisions of the Coalition of Northeast Governors ("CONEG") legislative model for the reduction of toxics in packaging and the California Toxics in Packaging Prevention Act. Pregis Innovative Packaging, Inc.'s manufacturing practices prohibit the intentional introduction of cadmium(Cd), hexavalent chromium(Cr +6), lead (Pb), or mercury (Hg) into its products' formulations. Further, the cumulative total of all such metals' incidental concentrations does not exceed 100 parts per million (ppm).

SECTION 16: OTHER INFORMATION

List of abbreviations	
ACGIH	American Conference of Governmental Industrial Hygienists
CERCLA	Comprehensive Environmental Response, Compensation, and Liability
	Act
CFR	Code of Federal Regulations
IARC	International Agency for Research on Cancer
IBC	International Code for the Construction and Equipment of Ships carrying
	Dangerous Chemicals in Bulk
MARPOL	International Convention for the Prevention of Pollution from Ships
NTP	National Toxicology Program
OSHA	Occupational Safety and Health Administration (United States)
PEL	Permissible Exposure Limit
