

Corner Keeper®

polyethylene
foam protectors

Corner Keeper protectors are precision cut protection from Pregis' Proflex® Profiles family. Individual PE foam Corner Keepers are slit from 6' x 3" or 4" diameter polyethylene Proflex® Profiles. The result is a shape that provides corner protection and cushioning for products that ship in outer cases.

Easy-to-use foam corners hold up against multiple impacts and constant vibration.

- Corner Keeper protectors pull apart easily so minimal labor and inventory space are required.
- Excellent resiliency, flexibility and shape memory
- Maximum shock absorption and vibration dampening
- Superior cushioning, blocking and bracing
- Ideal for delicate furniture, powder-coated finishes, class-A surfaces and sensitive biomedical parts
- Recyclable as category 4 (where available) 

Item Number	Size (diameter x thickness)	Count Per Case
49684	3" dia. x .50"	1045
49685	3" dia. x .75"	795
49686	4" dia. x 1.00"	342
49687	4" dia. x 1.25"	252

How it works:

Remove top of round to access first Corner Keeper.

Pull Corner Keeper off the profile.

Place protector onto product corner then into shipping container.
