Edge Foam®
polyethylene foam protectors

Edge Foam protectors cushion product edges from damage while protecting the product surface from scratching.

The flexible L- or U-shape channels enable the structure to wrap around corners and edges and still provide a snug, protective fit.

Easy-to-use foam channels hold up against multiple impacts and constant vibration.

- Edge Foam protectors easy to use and re-use.
- High cushioning and compression strength so the channel maintains thickness to minimize shock and vibration during shipping and transport.
- Clean, nonabrasive, chemically-inert material properties eliminate scratching or marring your product and provide, superb surface protection.
- Custom capabilities provide the protection most appropriate for the application, including asymmetrical and odd shapes.
- 90-degree angles can be notched to meet your requirements.
- Recyclable as category 4 (where available)
